PROFESSIONAL SUMMARY

Frontend Software Developer with 2.5 years of professional experience designing, building, and maintaining scalable, production-grade web applications using React, Next.js, and TypeScript. Strong problem-solving and analytical mindset, with experience translating complex business requirements into clean, maintainable, and scalable software solutions. Hands-on experience with backend development using NestJS, PostgreSQL, SQL, and Prisma, along with containerized application development using Docker. Experienced in applying solid software engineering principles, modular architecture, reusable design patterns, state management, database design, API development, and performance optimization to build reliable and extensible systems. Passionate about solving complex technical challenges and growing into a well-rounded Full-Stack Software Engineer.

CORE SKILLS

Javascript, Typescript, React.js, Next.js, Vue.js, Nuxt.js, Node.js, Nest.js, SQL, PostgreSQL, Prisma ORM, MongoDB, Mongoose, Redis, Problem Solving & Decision Making.
